PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1a (DIA). The photographic analysis for this particular report was performed by the NPIC Photographic Analysis Group.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training area or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

SUMMARY

Zheved Army Barracks Chernigov Southwest is located in the northern section of Chernigov Training Area NNE [redacted] 37 kilometers (km) southwest of Chernigov (Figure 1). The barracks installation provides billeting, administrative and other support for the training area.

Zheved Army Barracks Chernigov Southwest (Figures 2 and 3) covers approximately 775 acres and contains 2 administration buildings, 25 barracks, approximately 36 dependents quarters, 12 vehicle sheds, 2 high-bay vehicle maintenance buildings, 15 storage buildings, and 45 support buildings.

This installation was covered by [redacted] KEYHOLE missions from [redacted] Comparative analysis reveals that there was no major change during this period. Buildings added since [redacted] include 2 high-bay vehicle maintenance buildings, constructed between [redacted] and 5 barracks, constructed in [redacted] One SA-2 SAM site (B23-2) was constructed between [redacted] The level of activity at this installation has remained constant at light to medium. Ten rows of unidentified vehicles/equipment were observed on photography of [redacted] No activity was observed on winter coverage.

DESCRIPTION OF INSTALLATION

Railroad Service

The nearest rail facility is a single-track spur from the Chernigov-Ovruch rail line which serves a probable ammunition storage area 6 km northwest of the barracks.

Road Service

Secondary, probably all-weather roads connect this installation to the Chernigov-Kiyev highway.

Administrative and Troop Housing Areas

Area D1 contains an administration building, 12 barracks, and 10 support buildings. The support buildings were all constructed between [redacted]

Area D2 contains 8 barracks and 3 support buildings.

Area D3 contains approximately 36 dependents quarters.

Area D4 contains 9 support buildings which may be used as schools and 8 other support buildings. These buildings were all present by [redacted]

Area D5 contains 5 barracks and 4 support buildings. The barracks were constructed between [redacted] The support buildings were present by [redacted]

General Storage Areas

Area E1 contains 10 storage buildings, one high-bay vehicle maintenance building (195 by 65 feet), and 4 support buildings. The vehicle maintenance building and the support buildings were constructed between [redacted]

Area E2 contains one administration building, 5 storage buildings, 3 vehicle sheds (each 230 by 35 feet), one high-bay vehicle maintenance building (195 by 65 feet), and 4 support buildings. The vehicle maintenance building and the 4 sup-
